## REPORT OF TRUSTEES OF PUBLIC LIBRARY.

---

The thirty-fifth report of the trustees is herewith presented.

The total circulation of books for 1927 was 7,649, compared with 4,000 of last year. A large part of this increase was due to the library being open on Wednesday afternoons.

More new magazines were added: *Scribner's*, *Bird Lore*, *Industrial Arts*, *Popular Science*, *House Beautiful*, *Hygeia* (gift).

Many new juvenile books were added. There is more interest being shown in the juvenile reading, with the children spending more time at the library, which indicates the need of a children's room. There is a suitable room in the library which could be fitted up with a small expenditure.

Respectfully submitted,  
MARGUERITE A. NUTTING, *Clerk*.  
MARY A. FISK.  
C. H. ALLEN.

*To the Trustees of the Salem Free Public Library.*

## REPORT OF THE BOARD OF HEALTH.

---

During the past year there have been epidemics of chicken pox, measles and whooping cough and a few cases of scarlet fever and diphtheria, with no deaths from any of these diseases.

Samples of water from a few wells throughout the town have been sent to Concord for analysis. The reports showed the water in some cases to be unfit for use.

During the year numerous samples of the town water have been sent up for analysis. The reports from these have kept us informed as to the condition of the water. While the reports in general call the water very good, the State Board of Health still suggests the town install a chlorinating plant.

It might be necessary to chlorinate the water only a few months during the summer.

There were twenty-five deaths during the fiscal year ending January 31, 1928, two of these being accidental, one from drowning and one from burns, and six deaths from tuberculosis, one of these being from tuberculosis of the throat.

Population last census, 2,318.

Death rate per thousand, 10.78+.

LEWIS F. SOULE, M.D.,  
*Health Officer.*

## FIRE DEPARTMENT REPORT.

---

During the fiscal year ending February 1, 1928, the Fire Department have answered fifty-two alarms, eleven of which have been still alarms. An average of nine men have responded to all alarms.

The total property damage for the year was \$4,200.

The one piece of motor apparatus is in first-class condition, and the department has all the equipment it can carry on this truck; consequently it would be useless to recommend the purchase of additional equipment until such time as the town feels inclined to add another piece of apparatus to carry it.

I wish once more to express my hearty appreciation to the members of the Fire Department for their unstinted devotion to their duty and also the Local Telephone Exchange for the efficient manner in which they have operated the alarm system.

I also wish to thank the citizens in general for the moral support they have given the department.

C. H. BORCHERS,  
*Chief of Fire Department.*

## REPORT OF SCHOOL COMMITTEE.

The School Committee hereby reports to the citizens of Salem the progress of its work during the past year, and briefly outlines some of the work to be done during the coming year.

The Center School (No. 1) is in good condition, with the exception of the lavatories, which will be improved this summer. The water pipes from the street connection have been replaced with new ones, thereby improving the water pressure.

The interior and exterior of No. 3 School have been painted and the walls and ceiling renewed.

The Brick School (No. 4) at North Salem has been repainted. The interior has been considerably brightened by a brighter colored paint. The woodshed has been repaired.

The interior of No. 5 School at Millville has been painted. The well, which has not been used for years, has been sealed, eliminating danger of mishaps. The fence around the school property will be replaced during the summer.

The Depot School (No. 6) is in good condition with the exception of part of the roof, which will need new shingles before long; the grounds are in a deplorable condition, being in need of filling with cinders and gravel.

The Dark Entry School (No. 7) needs only the customary cleaning, as the buildings have been put in good condition.

No. 8 School has taken considerable time and money to be put into proper condition. Twelve hundred and twenty-one dollars of the thirteen hundred dollars appropriated for the work done at this school has been expended, and the work has not been completed. The new furnace and lavatories have made a big improvement in this school, where over seventy pupils are attending. The State Board of Education has requested a change in the approaches to the lavatories, which expense will consume the remainder of the appropriation.

The Hampshire Roads School (No. 9), being a new building, has needed few repairs. The grounds have been im-

proved and further improvements will be made this summer in order to allow more room for play grounds. The three hundred dollars appropriated for deepening the well has not been expended, as the well has shown an ample supply of water to date, due to the frequent rains during the summer and fall months.

In accordance with the recommendation of the State Board the elementary teachers are Normal School graduates, or have had several years' experience in teaching.

No. 10 School has not been used since the Arlington Mills Company built the dam. Mr. V. A. Childs was given permission to repair the building and use same for a camp, and wishes to purchase the property.

At the High School some repairs to the roof or upper part of the building are necessary, as the rain leaks through on the south side, staining the interior wall. An application has been put on the brick walls by Mr. Peabody, but the rain continues to leak through. The grounds have been put in a more presentable condition since the last school meeting, as you have already observed. A fence has been erected, which fulfills the obligation to the abutters. At the last annual meeting the need of more room for the incoming classes was brought to your attention. The enrollment in September exceeded estimates, and there are now two hundred and twenty-nine pupils enrolled. It therefore became necessary to drop the Manual Training Course from the curricula. Forty-nine additional desks were purchased for use in the room formerly used for the Manual Training Class.

Respectfully submitted,

E. J. MANOR,

WILLIAM BARRON,

ELIZABETH B. COOPER,

## REPORT OF THE SUPERINTENDENT OF SCHOOLS.

*To the School Board and Citizens of Salem:*

My first report is herewith submitted together with the reports of School Nurse, Supervisor of Music and Headmaster of the High School.

The school year begins July 1 and ends June 30. The year with which this report deals ended in June, 1927, and as I began my work in March my report will be limited in some respects. I have found the schools in good condition, and have tried to continue the work so well begun by your former superintendent.

There were 626 different pupils enrolled in the schools last year. This is practically the same as during the preceding year. The attendance averaged 94.6 per cent of the membership. The average for the state for this period was 94.57; 48 pupils completed the work of the eighth grade.

No one realizes better than I, that a superintendent's first year in a district should be a time of getting acquainted, rather than a period of radical changes. With this in mind I have tried to become familiar with matters pertaining to schools and to follow as closely as possible the plans already worked out.

Various standardized tests have been used to check school progress. These tests show that our schools as a whole are up to the standard attainment of schools in similar communities over the country. The fundamental processes—Reading, Arithmetic, Spelling and Writing—have been thoroughly taught and results checked by means of tests.

The general aim of education is to train all pupils in those qualities of life and character which will make them good and efficient citizens, in the community, state and nation. The objectives of education in a democracy have been summarized by a committee of American teachers under seven headings:

1. Command of Fundamental Processes.
2. Health.
3. Worthy Home Membership.
4. Training for Vocation.

5. Training for Citizenship.
6. Worthy Use of Leisure.
7. Ethical Character.

The teachers have coöperated with the superintendent in an attempt to unify the work of the schools to accomplish these objectives. It is our purpose to make our educational activities a means of achieving these purposes. For each individual pupil the work of education may be considered as directed toward developing purpose and personality for the good of the pupil and the society in which he lives. Thus we may hope that our school work will result in happy serviceable lives.

The supervisory activities have been expended in classroom visits, follow-up interviews, personal conferences and frequent school inspections. The two most important steps in improving schools are to improve the teaching and increase the actual attendance.

Parents should take notice of reports sent home by our school nurse, informing them of physical defects, and have these defects corrected. No pupil can do the mental work of the school properly, if physically handicapped.

Careful attention has been given to directing and supervising playground activities. The importance of physical training for health and development can hardly be over-emphasized. Training on the playground in honesty and fair play has very direct values for the school and community, because training in fair play is training for citizenship, the fundamental purpose of public education.

The scholarship medals for the eighth grade, given by the Salem Board of Trade, were awarded last June as follows:

First, Elsie Seed, gold medal.

Second, Mary Schulz, silver medal.

Third, Frederick Woodbury, bronze medal.

For the teachers, the School Board and myself, we express the desire that a larger number of parents and friends visit the schools. If parents will come to see their children at work, what they are doing, what they are given to do with

and how their work is directed, it will give them first-hand information concerning our schools.

In closing I wish to express my appreciation of the courtesy and coöperation of the School Board, the teachers, and to all who have helped in making our schools successful.

Respectfully submitted,

WILLIAM J. NELSON,

*Superintendent.*

## REPORT OF SUPERVISOR OF MUSIC.

*To the Superintendent and School Board of Salem:*

I hereby submit the 1927 report of the work in music.

There is nothing new in connection with the program. The textbooks are by Ginn and Co., a revised and greatly improved edition of the New Educational Course. Introductory Music was introduced at Nos. 3, 4, 5 and 7 schools at the beginning of the fall term. The boys and girls in grades 5, 6, 7 and 8 are working on a memory test to be given during the spring term. At the Woodbury High School one period each week is devoted to chorus work in the senior department and one period to the junior. Besides the regular work we have the Girls' Glee Club.

In April the Woodbury High School presented the operetta "Sailor Maids," by Charles Ross Chaney, before an audience that filled the hall, and was generously appreciative of the young people's efforts. The cast consisted of eight characters, other members of the school acting as chorus. Commendable solo work was done by both boys and girls.

The end of the year finds me, as always, grateful to the teachers, on whose assistance I rely to such a great extent. To the Superintendent and School Board I wish to express my thanks for their interest and coöperation.

Respectfully submitted,

EVA W. THOMPSON.

## REPORT OF SCHOOL NURSE.

## WOODBURY HIGH SCHOOL.

### *To the residents of the Town of Salem:*

With two and a half years of existence passed, Woodbury High School is now well headed toward that which was desired by her from all the loyal supporters in town, a successful school which would render service to the children and people of the community. During the existence of the school there has been a continuous growth in student body and an active faculty willing to render the best they had in the service of our town.

It will be interesting to note that when Woodbury High School opened for the first time there was an enrollment of 142 pupils, and just a year later the enrollment had reached the mark of 173 persons, and now reached the unexpected number of 229 boys and girls. This continuous growth during the first two periods of existence brought our faculty to the number of eight teachers, including the headmaster. The present faculty was composed as follows:

Headmaster, Seward F. French  
 Submaster and Director of Athletics, Francis H. Geremonty  
 Department of Languages, Mrs. Miriam T. Smith  
 Department of Commerce and Business, Dorothy M. Guild  
 Department of Science and Mathematics, Carl H. Harriman  
 Department of Domestic Arts, Marion A. Turner  
 Department of Junior High School, Mary A. Fiske and  
 Hazel M. Bullis

The present faculty is teaching practically every period of the day and, in such cases as when not actually teaching, are giving special help to pupils in need of assistance in their work.

Many of our classes are decidedly too large for the best results. Classes numbering as high as 50 must be handled as one unit because of limited number of teachers, and this means that those pupils who may need more special attention than others are in a sense deprived of the help that might be had in a smaller class. Another teacher, or part-time teacher, would be a valuable addition to our teaching

equipment and would undoubtedly save many from failing in courses who now do not make their grade.

The records in the headmaster's office show the following enrollment by classes and by groups of boys and girls:

Junior High School,	Class I, 42
	Class II, 39
Senior High School,	Class III, 51
	Class IV, 38
	Class V, 41
	Class VI, 18
	<hr/>
Total,	229

Of this total enrollment the total number of pupils who have left school thus far is 15, and of this number practically all have either moved away or have been obliged to leave school because of sickness, only three seeking employment.

The following enrollment stands on January 24, 1928, not including those pupils who have left school:

Number of boys in Senior Class VI,	10
Number of girls in Senior Class VI,	8
Number of boys in Junior Class V,	15
Number of girls in Junior Class V,	23
Number of boys in Sophomore Class IV,	22
Number of girls in Sophomore Class IV,	16
Number of boys in Freshmen Class III,	16
Number of girls in Freshman Class III,	28
Number of boys in Class II,	23
Number of girls in Class II,	14
Number of boys in Class I,	22

In the Junior High School, Class I is the same as last year, excessively large, it being necessary for many students to occupy armchairs, which are an inconvenience to the pupils and teacher, and over-taxes the capacity of the room, as before stated. A class of this size, and especially in classes 7 and 8, makes work difficult, and individual work, which in many cases is needed, almost impossible.

Class 2 is a little better, but the same conditions prevail. The prospects of the entering class continuing now about 40 means a constant study and arrangement of the seating plan of the school, and everything is being done to bring about the very best results. Because of the large enrollment it was absolutely necessary to remove Manual Training from the building, thus dropping the course, in order that we might seat the Freshman Class. We have at present throughout

the building a possible means of seating 24 pupils, and, with 18 graduating in June and approximately 40 entering in the fall, you will be able to see what the administration has to do to seat the students in the building.

As you know, we were obliged to discontinue Manual Training, and therefore our Junior School lost its approved standing from the State Department; this, however, did not affect the four years' Senior High School.

Fifty new seats have been added to the building and, as I have stated, are already full, this being possible by using the room occupied by Manual Training last year. The Senior High School was approved last year, and will undoubtedly be approved this year, by the State Department, giving us a Class A School. The standard of the school is high and will be continuing to improve as time goes on. Our aim is the best standards possible.

The health work of the school is again directed by Miss Helen Thomas, who has just completed her annual medical examination, and her report to the Headmaster's office is indeed encouraging. While there are some under-weight, the number as compared with last year and the year before is indeed encouraging. Teeth are in especially good condition, and practically all children needing glasses have been provided. Our healthy children help our attendance record, which is very vital to good work.

The Music Department continues under the direction of Mrs. Eva Thompson, with the same regular classes of instruction as last year. The Girls Glee Club continues to work with Mrs. Thompson, and in the springtime we will present another musical play.

Last year I complained of attendance, and I may say that although it is possible for an improvement I certainly appreciate the wonderful coöperation on the part of parents in having their children at school every day when possible, and on time. If a child is ill we do not want the child at school.

The Domestic Arts Department, under the direction of Miss Marion Turner, is continuing its usual good work. Demonstrations, canning, homemaking, etc., have been

carried on. Exhibitions of the work have been given from time to time, and coöperation with outsiders enables us to have a broader field of instruction.

The clerical work of the school is being carried on by the members of the Office Practice Class. These girls, one being secretary to the Headmaster, and the other three are doing such mimeographical work and clerical work as desired by other members of the faculty. The work is very beneficial to the students and teachers.

The outside activities of the school are, as usual, dramatics, public speaking, athletics and social service work. In athletics, especially football, under the very efficient coaching of Mr. Geremonty, Woodbury High School has more than held her place with strong opponents. Football has been given very fine support by the townspeople, and it is gratifying to know that all members of the squad have maintained their scholastic standing, which we may be proud of. Basketball for both boys and girls receives its proper attention, and baseball is also included in the list. All students participating in athletics are under the constant supervision of coaches, and their health is paramount at all times. Without doubt, the athletic program is in a way responsible for the improvement physically which has taken place in the school during the past two years. The social experience of traveling throughout the country to represent this school, as well as entertaining young people of other towns, means much to the student body and townspeople.

In summing, it is evident that the people of Salem are more and more interested in the activities of Woodbury High School. They are showing marked increase in coöperation and, by their splendid support at all times, have helped to develop one of New Hampshire's good high schools. It is the desire of the faculty to work for the best interests of the town at large, and, with the supervision of Mr. W. J. Nelson, are endeavoring to teach and lead a fine, wholesome group of young people. I only hope that

all parents, or others interested in any school question of which I may be of service, will feel free at any time to communicate with me, and I will do my very best to help.

SEWARD F. FRENCH,  
*Headmaster.*
